

Tuesday Maths Session

Money Starter

Which aliens are worth the same amount? Circle them.

--	--	--	--

Recap of Multiplication

One rhinoceros has 3 horns. How many horns will 7 rhinoceroses have?

Draw an array to match the equation.

$$7 \times 3 = \square$$

There are 6 cows in a field. How many legs do the 6 cows have altogether?

(Each cow has 4 legs.)

$$\square \times \square = \square$$

Division Activities

There are 15 bottles. Divide them into 3 equal groups.

Show this on the picture.

What division equation can you say?

What other equations can you say?

Write the equations here, remembering we can say it as “15 bottles shared into 3 groups” or “15 bottles shared into 5 groups”.

$$\square \div \square = \square \quad \square \div \square = \square$$

There are 30 sandwiches. Divide them into groups of 3.

Show this on the picture.

What division equation can you say?

What other equations can you say?

$$\square \div \square = \square \quad \square \div \square = \square$$

There are 21 slices of cake. Divide them into groups of 7

Show this on the picture.

What division equation can you say?

What other equations can you say?

$$\square \div \square = \square \quad \square \div \square = \square$$

Challenge

A jar contains 5 sweets. A box contains 5 jars. Zach has 75 sweets.

How many jars will he need?
How many boxes will he need?

How many jars will he need?

How many boxes will he need?

Write a multiplication and division equation for both.

Plenary

Part of this array is hidden.

The total is less than 20.
What could the array be?
