KNOWLEDGE ORGANISER

ART — Experiences — YEAR 3 AND 4/ KEY STAGE 2

Cross curricular links

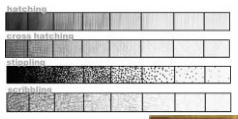
Literacy: create a painting inspired by a story or poem.

Geography: paint a place - geographical features of a place (physical and human features).

Music: paint what is experienced through colour.

Pictures/photos relevant to topic

Sketching



Colour mixing

If you could step into the picture, what would you hear, smell and taste?

Who could these people be? Why are they here? What might they be feeling or thinking about?

What happened before this photograph was taken? What will happen next?

Key skills

Develop drawing techniques using a range of sketching pencils, including tone and shading.

Record experiences in a sketchbook.

Investigate the work of significant artists in history and make a personal response using artistic language.

To learn to design and create a painting that reflects an experience

Key Vocabulary/definitions

Composition: the way the parts of a painting are put together

Focal Point: a key point of interest in your painting that you want your viewers to notice first

Narrative: art that tells a story

Secondary Colours: made by mixing equal amounts of primary colours together

Tertiary Colours: a combination of primary and secondary colours is known as tertiary due to their compound nature. Blue-green, yellow green, red-orange, yellow-orange, blue-purple and red-purple.

Useful Information

"Practice makes perfect – but no one is perfect so why practice? Well - Art isn't always about the end result, but the process."

Art helps us:

Understand ourselves and the world: Art can help us understand our history, culture, and lives, and the experiences of others. It can also help us make sense of the world around us.

Express ourselves: Art can help us express our emotions and communicate our thoughts and feelings.

Build confidence: Art can help build confidence and a sense of individual identity.

Develop wellbeing and physical skills: Art can help develop critical thinking, fine motor skills and hand-eye coordination.
