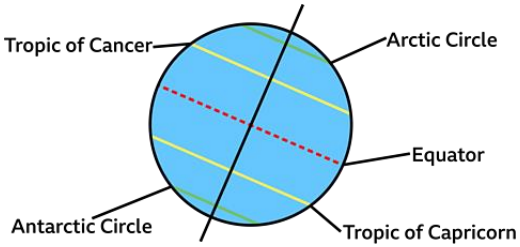
KNOWLEDGE ORGANISER

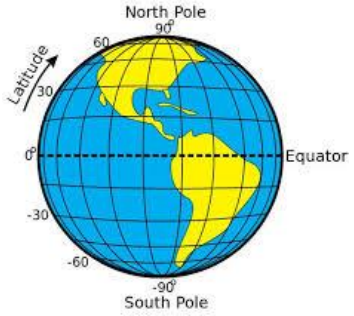
GEOGRPAHY	FROM POLE TO POLE	UKS2

Cross curricular links

Science – learning about different weather patterns
Computing – the children will be using Digimaps, an online programme that allows them to explore maps of the world in greater depth

Pictures/photos relevant to topic





Key skills

- To identify the position/significance of Equator, Northern Hemisphere and Southern Hemisphere
- Use four figure grid references to build their knowledge of the UK
- Use six figure grid references to build their knowledge of the UK
- Use the eight points of a compass to build their knowledge of the wider world
- Identify the position/significance the Tropics of Cancer and Capricorn, Arctic and Antarctic Circle
- Identify the position and significance of latitude and longitude
- Use geographical vocabulary to describe key physical features

Key Vocabulary/definitions

Latitude – Lines of latitude circle the earth parallel to the Equator

Longitude – Lines of longitude run in a north – south direction vertically from pole to pole

Equator – The central line of latitude that runs half way across the earth

Poles – The North Pole is the most northernmost point of the Earth, while the South Pole is at the southernmost point on Earth
