

## Literacy activity - 6.7.20

This week we are going to continue recapping all of the long vowel sounds that we have learnt over the past few weeks: ai, ee, igh and oa. You might want to start by watching this video recapping all the sounds that have been taught.

<https://www.youtube.com/watch?v=OQwrkowksKk>

### To start

Show the children the sounds below. Point to a sound and ask your child to say the sound that the letters make.

**ai ee igh oa**

Then have a go at reading the following words. Your child might need support recognising the long vowel digraphs in the words.

float

brain

sweet

flight

chain

feet

bright

moat

### You should

Today we are going to spell some words that have the 'oa', 'ee', 'ai' and 'igh' sounds in. Look at the pictures on the next page and then spell the words using the phoneme frame. If you don't have a printer, look at the pictures and write the words down on some paper. Remember you only put one sound into each box. For example, goat has three sounds, g-oa-t. Each sound goes in its own box.

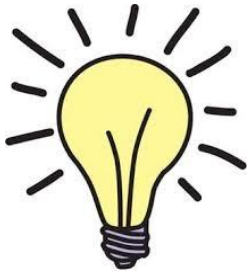

g	oa	t
---	----	---

### You could (if you want a challenge!)

Write a sentence about each of the pictures; it can be a silly sentence if you want!  
Remember your finger spaces and to sound out each word.
