

## Maths activity – 14.7.20

### Adding by counting on

#### To start

Firstly, ask your child to practice finding one more or one less with this game:

<https://www.topmarks.co.uk/learning-to-count/chopper-squad>

#### Should

Ask your child to solve these additions by counting on. They should try to solve some of them in their head, but they can also use their fingers or this number line if it is helpful.

$3+2=$	
$4+1=$	
$6+3=$	
$1+5=$	

$5+5=$	
$7+2=$	
$2+6=$	
$3+4=$	

#### Could

If your child would like to carry on practising their adding by counting on, and would like to try adding some larger numbers, they could have a go at this 'Robot Addition' game, starting from adding up to 15.
