

## Maths activity – 16.7.20

### Subtraction by counting back

#### To start

Watch this video with your child to remind them how to subtract by counting back.

<https://www.youtube.com/watch?v=QhR1SEK49qM>

#### Should

Ask your child to solve these subtractions by counting back. They should try to solve some of them in their head, but they can also use their fingers or this number line if it is helpful.

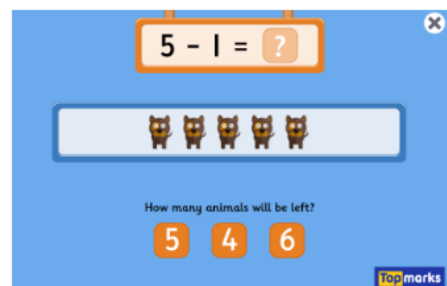

$5-2=$	
$8-4=$	
$10-3=$	
$9-8=$	

$3-1=$	
$5-4=$	
$7-2=$	
$6-3=$	

#### Could

If your child would like more practise, ask them to have a go at this subtraction game. Prompt them to count back along the line to see how many they have left.
