SCIENCE	WHAT WE EAT		KS1
Cross curricular links	Key skills	Key Vocabulary/definitions	
<p>Maths – measuring or charting the growth of plants.</p> <p>PSHE / RE – Discussing different choices humans can make about eating, such as being vegetarian, vegan, eating halal or eating kosher.</p>	<ul style="list-style-type: none"> Plant fruits and vegetables and observe their growth. Describe how animals obtain their food from plants or other animals. Identify a variety of animals that are carnivores, herbivores and omnivores. Investigate the idea of a simple food chain. 	<p>Carnivore – an animal that only eats meat</p> <p>Herbivore – an animal that only eats plants, such as grass, fruit and vegetables</p> <p>Omnivore – an animal that eats both meat and plants</p> <p>Food chain – the plants, predators and prey that eat each other in a particular place, like in the jungle or under the sea</p> <p>Food source – where food comes from</p> <p>Observe – to watch something carefully</p>	
Pictures/photos relevant to topic	<p>Key Facts</p> <p>All food chains start with a plant. How many plants can you think of? What animals can you think of that eat them?</p> <p>Food chains are made up of predators (that eat other animals) and prey (that are eaten). Some animals can be both a predator and prey.</p> <p>Food chains have an apex predator at the top. This is the top animal that nothing else eats.</p> <p>When we grow fruits and vegetables, they need light and water. We can watch how long it takes them to grow.</p>		
  			

KNOWLEDGE ORGANISER

	<p>Identify and name a variety of common animals that are carnivores, herbivores and omnivores</p>
